10th Euro Neuro Brussels 2018

Location : Le Plaza Brussels,
Blvd Adolphe Max 118-126, B-Brussels
www.leplaza-brussels.be

EuroNeuro is a biennial multidisciplinary meeting aimed at neurologists, neurosurgeons, (neuro-) intensivists, (neuro-) anesthesiologists and basic neuroscientists, as well as neurocritical care nurses, anesthesia nurses and other healthcare practitioners who care for patients with neurological diseases and brain injuries. Bringing together specialists and scientists with diverse backgrounds, EuroNeuro aims to broaden our understanding of the pathophysiology of, and therapeutic modalities for, those conditions. Each session is organized by representatives of at least two different specialties, ensuring that the topics will be of interest to physicians, researchers and nurses with different backgrounds.

Chairman:

FS Taccone (Brussels, Belgium)

Management & Coordination

Véronique De Vlaeminck
Erasmus University Hospital
Promotion des Soins intensifs
Route de Lennik 808
